SEAL anti-bullying resource

The anti-bullying resource is designed to be used to support an intensive whole school focus as part of National Anti-Bullying Week held in November every year; to extend learning opportunities within other Social and Emotional Aspects of Learning (SEAL) themes; as an element of a response to a whole school issue; or to support cross-curricular coverage of a SEAL theme.

The anti-bullying resource includes:

- a theme overview
- a set of structured staff development opportunities
- ten example learning opportunities for use with pupils in Years 7, 8 and 9 that can be delivered flexibly to promote progression or to develop specific skills according to needs. These flow from a series of stimulus materials. They are divided into three themes: individuals, resilience and bullying; group bullying; prejudice-driven bullying
- links to other materials and references.

Anti-bullying resource map

This map is designed to help you find the resources you need if you are using the staff development activities or learning opportunities as part of training or with pupils.

Summary of resource sheets
